Unpaid Engine Price After Dismantled Return — Milimani Small Claims Court

Educational reconstruction based on a published Kenyan judicial decision. This is newly drafted sample wording, not the original filed document and not a case handled by our team. Parties and identifying details are replaced with fields for completion. The source judgment may display original public case details.

Purpose and correct procedural stage

Looking for a list of documents and issue-to-evidence schedule for unpaid engine price after dismantled return in Nairobi? This page provides a reconstructed draft for Milimani Small Claims Court, with editable Word and PDF downloads. A Kenyan lawyer or advocate can adapt the document to the correct party, evidence and procedural stage.

Use the formal section only after completing the fields from the actual record. The educational notes and later outcome are separate from the draft and should not be filed as allegations that existed at the earlier stage. Keep the actual party’s legal position: Engine seller.

No mechanic’s report, photographs or complaint messages should be invented. A different buyer with genuine technical evidence may have a different result.

What happened later — educational context only

The seller recovered the engine price. The buyer’s alleged defect and replacement arrangement lacked the evidence needed to defeat the claim in the record before the court.

The sample was drafted retrospectively from the published reasons. It is not evidence that these exact words, schedules or documents were filed in the source proceedings. Factual assertions must be verified independently before any real filing.
